

AEGIBIT

From AEGIS to Rahul — co-founder briefing

Weekend Build Plan

Sun May 03 2026

Three ideas you can build Saturday and Sunday. Each includes budget, architecture, and an honest revenue model. Pick one. Ship it. We talk Monday morning.

IDEA 1 OF 3

AEGIBIT Watchtower

SaaS that auto-PRs security fixes for any GitHub repo

BUDGET

~\$800 for the weekend build (compute, APIs, domains, ads to validate).

ARCHITECTURE

GitHub App !' webhook !' Cloudflare Worker !' OSV/Snyk scan !' auto-PR via Octokit. Postgres for state, Resend for digests. \$0 hosting until 100 repos.

REVENUE MODEL

\$29/mo per repo. 50 repos in 3 months = \$1,450 MRR. Upsell: managed remediation \$499/mo.

SATURDAY PLAN

- Domain + Vercel project (15 min)
- Next.js scaffold, copy AEGIBIT design tokens (1 hr)
- Core feature MVP — happy path only (4 hr)
- Stripe link or Lemon Squeezy for payments (45 min)
- Landing page + waitlist + Google Analytics (2 hr)

SUNDAY PLAN

- Polish + 1 case-study screenshot (2 hr)
- Post on LinkedIn, X, IndieHackers, ProductHunt-upcoming (1 hr)
- DM 30 ideal users with a personalized note (2 hr)
- Set up automation alerts for the first signup (30 min)
- Write the first follow-up blog post — AEGIS auto-publishes Mon (1 hr)

DEFINITION OF DONE

Live URL, payment works, 50+ unique visitors, "e1 paid customer or 30+ waitlist signups by Sunday 23:59 IST.

IDEA 2 OF 3

VoiceCore Audit Trail

Sell our immutable voice-command audit log as a standalone compliance product

BUDGET

~\$1200 for the weekend build (compute, APIs, domains, ads to validate).

ARCHITECTURE

Reuse VoiceCore append-only log !' Postgres !' REST + signed-export endpoint !' Stripe metered billing per 1K events.

REVENUE MODEL

\$0.001 per event after 100K free. Targets compliance teams. 5 customers = \$500-2,000 MRR.

SATURDAY PLAN

- Domain + Vercel project (15 min)
- Next.js scaffold, copy AEGIBIT design tokens (1 hr)
- Core feature MVP — happy path only (4 hr)
- Stripe link or Lemon Squeezy for payments (45 min)
- Landing page + waitlist + Google Analytics (2 hr)

SUNDAY PLAN

- Polish + 1 case-study screenshot (2 hr)
- Post on LinkedIn, X, IndieHackers, ProductHunt-upcoming (1 hr)
- DM 30 ideal users with a personalized note (2 hr)
- Set up automation alerts for the first signup (30 min)
- Write the first follow-up blog post — AEGIS auto-publishes Mon (1 hr)

DEFINITION OF DONE

Live URL, payment works, 50+ unique visitors, "e1 paid customer or 30+ waitlist signups by Sunday 23:59 IST.

IDEA 3 OF 3

Free Site-Vuln Scanner

Top-of-funnel: prospects paste a URL, we scan, email a PDF report, capture lead

BUDGET

~\$400 for the weekend build (compute, APIs, domains, ads to validate).

ARCHITECTURE

Next.js form !' queue (Upstash) !' headless Chromium + Lighthouse + nuclei !' PDF report (pdfkit) !'
Resend email + Supabase lead capture.

REVENUE MODEL

Free top-of-funnel. Convert 5% of scans !' \$4,999 fix engagement. Target: 200 scans/mo !' \$50K/mo.

SATURDAY PLAN

- Domain + Vercel project (15 min)
- Next.js scaffold, copy AEGIBIT design tokens (1 hr)
- Core feature MVP — happy path only (4 hr)
- Stripe link or Lemon Squeezy for payments (45 min)
- Landing page + waitlist + Google Analytics (2 hr)

SUNDAY PLAN

- Polish + 1 case-study screenshot (2 hr)
- Post on LinkedIn, X, IndieHackers, ProductHunt-upcoming (1 hr)
- DM 30 ideal users with a personalized note (2 hr)
- Set up automation alerts for the first signup (30 min)
- Write the first follow-up blog post — AEGIS auto-publishes Mon (1 hr)

DEFINITION OF DONE

Live URL, payment works, 50+ unique visitors, "e1 paid customer or 30+ waitlist signups by Sunday 23:59 IST.

Why I picked these three

Each is buildable in a weekend, has a clear payer, and reinforces AEGIBIT's security-first moat. None require us to spend more than what's in the budget line. All can fail cheap and teach us something.
